GRAND CANYON

I R O N W O O D

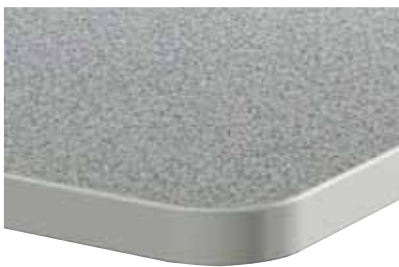

New media, new terminology and new technology all need human interface. From structured learning to free form creativity to relaxing, the environment we are in makes a difference. We bring our wealth of experience to build that environment.

Low Pressure Laminate

Our standard low pressure laminates with matched or accent 3mm pvc edging bring together durability with cost effectiveness. Choose from any of our standard laminates, edging and powder coat colors.

High Pressure Laminate

High pressure laminates bring the highest degree of creativity with hundreds of colors and patterns. Mixing these laminates with our standard edgings and powder coat colors makes a nearly limitless number of choices.

Iron Edge

Combine high pressure laminate and our Iron Edge for the highest durability. Seamless edging conforms to the edge and corner profile of the top to create a softer look. Available in black.

Welded Frame

This is our most requested frame when durability is a concern. Ironwood's Welded Frame Series (CT-WF) table frames are engineered to work with the wire tray while providing full support of the work surface. Available in both fixed height and adjustable height.

Pedestal

The vertical support opens the front of your work area to provide easier access when coming and going. Ironwood's Pedestal Base Series (CT-PB) has many options; we can offset the upright leg, add keyboards and CPU hangers. Optional adjustable height legs allow you to set the work level to your comfort zone.

3060-CT-PB-A2

Double Pedestal

The double vertical supports on this series maintain an open front while adding to the design appeal. Ironwood's Double Pedestal Base series (CT-DPB) has all of the options of our PB series. Optional adjustable height legs allow the user to set the work level to their own comfort zone.

Panel Base

Our Panel Base (CT-PL) series brings more color and warmth to a room. The full side panels and modesty provides a better place to store your backpack or briefcase. These units can be built to your height needs for younger users or for ADA requirements.
