Its narrow design allows the Dictionary Stand to fit nicely at the end of double-faced shelving ranges, or for use anywhere as a compact stand-alone display and information stations. This multi-purpose piece can serve as a Dictionary Stand, or as shelving for special reference materials. The slanting top surface is 24"W and features a clear plastic book stop. It also has a fixed bottom shelf, and a middle shelf that adjusts in 1-1/4" increments. This 32"H unit is ideal for elementary schools or library sections geared to children. The 39"H version of the Dictionary Stand can also double as a lectern for public speakers and storytellers.
